

# JobMinglr + Greenhouse Setup

---

## Step 1: Copy Your Job Board URL

1. Go to **Configure** → **Job Boards**
2. Click **Edit Board Settings**
3. Copy your **Job Board URL**:

<https://boards.greenhouse.io/yourcompany>

👉 Paste this into the “Job Board URL” field in the [Green JobMinglr Customer Form](#)

---

## Step 2: Create Job Board API Key

1. Go to **Configure** → **Dev Center**
2. Click **API Credential Management**
3. Click **Create New API Credentials**

Enter:

- **API Type:** Job Board
  - **Partner:** JobMinglr
  - **Description:** JobMinglr Integration
4. Click **Create**
  5. Copy the **API Key**

👉 Paste this into the “API Key” field in the [Green JobMinglr Customer Form](#)

---

## Step 3: Submit Form

Submit the [Green JobMinglr Customer Form](#) with:

- Contact Information
- Job Board URL
- API Key

---

## What Happens Next

- Jobs sync automatically from Greenhouse
- Listings appear in JobMinglr
- Matching begins

---
